residents
site visits
official sites

PROBLEM STATEMENT

WHAT?
WHO?
WHEN?
HOW?

Lack of transport on the hill area

WHAT?

taxi

bus

scooter

Vulnerable people

who to contact???

WHO?

everyday outside interactions

WHEN?

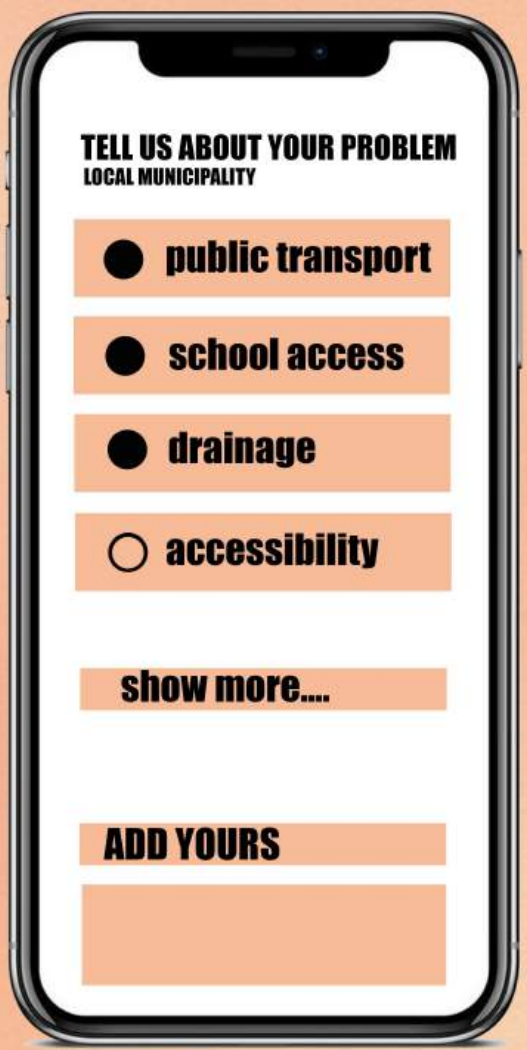
HOW?

limited accessibility

PROTOTYPE I

Need to speak with someone.
Who? Local Municipalities.
How? Scan me.

PROTOTYPE II



who collects data?

Data is being collected by local municipalities who can connect to bigger authorities and make lives for residents such as older people and kids easier

Data can also be used for activists who can make researches in order to suggest or improve lifestyle

filters?

All informations would be filtered by system so it could represent valuable data.

anonymity?

For adding opinion or suggestion a phone number or mail would be an option so the person can trach where the data goes and if its used, also anonymity would be optional.
